i. Administration

a. Report Back on Investment Reallocation

The Manager of Financial and Human Resource Services, Alison Armstrong, reported back with regard to the Board request for investment options and/or alternatives.

As per the 2014 financial investment questionnaire, GSCA maintains a 60/40 split between equities and cash. Staff investigated the options for moving investments out of the current equity holding and into something lower risk to ensure that gains will be available to utilize in the short term. Comparing five major banks and a credit union on availability and rate of return, it was determined that the interest rate that GSCA's saving account garners is comparable to that of mid-term Cashable GICs and greater than short-term options.

GSCA's portfolio manager recommended that prior to moving funds out of the investment portfolio that the Board complete another questionnaire. However, it was stressed that this should be done only once GSCA's short-term cash requirements were known.

Staff recommend maintaining the savings account at present and conducting a new questionnaire for the investments once staff have determined the needs of the Authority more thoroughly.

Motion No.:	Moved By:	Scott Mackey
FA-21-147	Seconded By:	Cathy Moore Coburn

WHEREAS, GSCA has reserve funds invested with TD Wealth having a market value of \$1,580,426 and on deposit with BMO in the amount of \$548,946;

AND WHEREAS, the current investment policy may carry a higher risk than current Board and market conditions warrant;

AND FURTHER WHEREAS, GSCA has considerable cash in a bank account earning a comparable rate to any alternatives recommended;

THAT, the GSCA Board of Directors direct the CAO and Manager of Financial Services to complete a new questionnaire for our TD portfolio strategy when we are better able to determine our future capital spending requirements and leave the funds on deposit with BMO until our cash requirements are determined.

Carried

b. CAA Transition Plan

The CAO, Tim Lanthier, presented the final copy of the GSCA Transition Plan for the Board's approval. The deadline for submission to the province is December 31, 2021.

The transition plan outlines the timeline for moving forward toward having the necessary agreements with member municipalities signed and in place within the required timeframe.

A Member asked Tim how much of his time was diverted away from other duties to address changes to the Conservation Authorities Act.

Tim explained that he did not have a specific number, however; estimated that between 10-15% of his time was dedicated to various meetings, consultations, and administration tasks associated with the changes to the Act.

Motion No.:
FA-21-148

Moved By: Marion Koepke
Seconded By: Cathy Little

WHEREAS on October 4, 2021, the Province of Ontario released Ontario Regulation 687/21 – Transition Plans and Agreements for Programs and Services Under Section 21.1.2 of the Act,

THAT the GSCA Board of Directors endorse the attached “Grey Sauble Conservation Authority Transition Plan” as presented,

ii. Water Management

a. Watershed Health Checks

The Water Resources Coordinator, John Bittorf, presented the Watershed Health Check Report Cards for the Sauble River and Pottawatomi River sub-watersheds.

John thanked all of the staff involved in the creation of the report cards, including Gloria Dangerfield, Vicki Rowsell, Kris Robinson, Elaine VanDenKieboom, and Rebecca Ferguson.

It was noted that GSCA has 28 watersheds & sub-watersheds and that three other health checks have been completed so far.

John gave an overview of both watersheds, noting their marks in specific categories and noted new features in these report cards.

One new category was Wetland Conditions, which both sub-watersheds scored high in. John noted that there was insufficient data to grade the Ground Water Health of both areas and that more ground water well testing sites would be needed to get an accurate picture on the health of the area's ground water.

iii. Environmental Planning

a. 2022 Planning and Permits Fee Schedule

The Manager of Environmental Planning, MacLean Plewes, presented the proposed 2022 Interim Planning and Permits Fee Schedule. GSCA is continuing to move forward with Watson and Associates on a comprehensive fee review and is set to be presented for Board consultation in early 2022.

In the interim, staff have applied an increase that is in line with the Ontario CPI rate of 4.9% to the existing fee schedule.

This included mapping constructed drains and erosion risk. The report showed that the GSCA watershed area had very few constructed drains and high erosion risk. Keith explained that there has been a shift from livestock farming to cash crop operations.

Member Dwight Burley left the meeting at 2:19 p.m.

The stewardship program provided grant funding for tree planting, exclusion fencing, water diversion projects, and cover crop planting.

Keith thanked all of the grant donors and partners.

The presentation will be made available to Board members through the Board Portal.

Member Paul Vickers rejoined the meeting at 2:27 p.m.

b. GSCA Cedar Cutting Approach

Forestry Coordinator, Mike Fry, reported to the Board regarding an alternative cedar harvesting approach that would reduce the impact on the land and encourage future cedar growth. This method is called the “Pearl Necklace” approach, whereby round openings and harvest trails are cut resembling a necklace of pearls from the air. The diameter of the openings are determined by the adjacent tree height.

Staff have identified some plots that this approach would be appropriate for trial. It was noted that it is a challenge finding contractors that will follow the proscribe method of harvesting. Staff are engaging with local contractors one on one to explain the project.

Motion No.:	Moved By:	Cathy Little
FA-21-155	Seconded By:	Ryan Greig
